ABOUT THIS PRODUCT

Designed to help protect valuable guest room amenities, the Nottingham Anti-Theft Device offers a simple yet highly effective security solution for hospitality environments. Its durable retractable cable keeps appliances safely tethered while allowing guests the flexibility to use them comfortably. A secure locking mechanism with Allen key fastening helps deter theft, while the discreet flush-mounted installation maintains a clean, professional appearance. Easy to install and built for everyday reliability, the Nottingham provides lasting peace of mind without compromising the guest experience.
